LEE STRACHAN

NETWORK & CYBERSECURITY EXECUTIVE

Lee@strachansfamily.com | 239 841-7194| Fort Myers, Florida
www.leestrachan.com

EXECUTIVE PROFILE

Technology and cybersecurity executive with extensive experience leading IT strategy, cybersecurity operations, managed services, service delivery, security intelligence, and organizational risk. Founder and executive leader with a track record of building and scaling Managed Service Provider (MSP) operations, directing multidisciplinary teams, strengthening cyber resilience, and delivering IT, cloud, networking, and security solutions across the UK and international environments.

EXECUTIVE PROFILE

- Technology Strategy
- MSP Leadership
- Incident Response & Escalation
- Cloud & Infrastructure
- Microsoft 365
- Cybersecurity Operations
- Government & Compliance
- Security Intelligence
- Networking
- Google Workspace
- IT & Service Delivery
- Risk Management
- Team Leadership
- Client Engagement
- Automation

PROFESIONAL EXPERIENCE

Senior Device Engineer, Lee Health **Aug 2026 - Present**

- Provide advanced technical support and maintenance for enterprise IT devices and endpoint infrastructure across Lee Health facilities, ensuring high availability, reliability, performance, and compliance within a critical healthcare environment.
- Troubleshoot, configure, deploy, and maintain desktops, laptops, workstations, mobile devices, peripherals, and healthcare-related IT equipment, supporting clinical and administrative teams while minimizing operational disruption and maintaining excellent service delivery.
- Collaborate with IT infrastructure teams, network engineers, cybersecurity personnel, vendors, and healthcare professionals to resolve complex technical issues, coordinate hardware deployments, manage device lifecycle operations, and ensure adherence to organizational IT standards, cybersecurity policies, and healthcare data protection requirements.

Network Security Manager, Babcock Ranch **May 2026 - June 2026**

- Lead and manage enterprise network infrastructure across multiple sites, ensuring high availability, performance, security, and scalability of LAN, WAN, Wi-Fi, VPN, and cloud-connected environments.
- Manage network engineers, technicians, vendors, and service providers, overseeing project delivery, workload prioritization, technical standards, documentation, and day-to-day operational support.
- Design, implement, and maintain firewalls, switches, routers, wireless infrastructure, VLANs, SD-WAN, VPNs, redundancy, monitoring, and disaster recovery solutions while following cybersecurity best practices.

Director/Head of Networks, Elevate Home Services **Aug 2025 - May 2026**

• Directed daily operations for armed and unarmed security teams across multiple sites, ensuring alignment with company policies, safety protocols, and client expectations.
• Led threat assessments, incident investigations, and risk-mitigation activities to protect personnel, property, and assets.
• Supervised, trained, and scheduled security officers across access control, emergency response, de-escalation techniques, and firearms safety.
• Maintained operational readiness and a professional, highly responsive security presence across assigned environments

Sr Analyst - Cyber Security, Global IT Technologies Group **Jan 2014 - Aug 2025**

• Founded and led Global IT Technologies Group as a Managed Services Provider (MSP), delivering IT, cybersecurity, and cloud solutions while driving strategic growth and international expansion.
• Held executive oversight for end-to-end business operations, including service delivery, cybersecurity programs, client engagement, IT support, operational efficiency, and customer satisfaction across multiple sectors.
• Built and scaled managed IT and security services operations, translating technical capabilities into resilient client-focused solutions.
• Provided leadership across technology strategy, cybersecurity delivery, cloud services, networking, operational governance, and customer engagement.

SECURITY OPERATIONS LEADERSHIP

Security Operations Center Manager, Alphabet Google **Aug 2009 - Feb 2014**

• Led identification, investigation, containment, and escalation of security incidents, ensuring critical threats were addressed promptly.
• Oversaw continuous monitoring of security alerts, SIEM/EDR platforms, network activity, vulnerabilities, and emerging threats.
• Coordinated SOC personnel, established response procedures, maintained documentation and reporting, conducted security reviews, and supported operational readiness for security incidents.

EARLIER CAREER

British Army, Scots Guardman **Aug 2006 - Feb 2009**

EDUCATION

Masters in Computer Science **2013 - 2016**
The Open University
Post Graduate in Computer Science **2009 - 2013**
University of West London

SELECTED CERTIFICATIONS & PROFESSIONAL CREDENTIALS

- Azure Archirecture AZ300/03
- Azure Fundamentals MS900/1
- Azure Solutions Arcitect Expert AZ-305
- Azure Administrator Associate AZ-104
- Azure Security Engineer Associate AZ-500
- Azure AI Engineer Associate AI-102
- Certified Ethical Hacker (CEH)
- Certified Information Security Manager (CISM)
- Certified Information Security Auditor (CISA)
- CompTIA Advance Security Practitioners (CASP)
